

FOR IMMEDIATE RELEASE

Extraction Oil & Gas Completes Financial Restructuring

Company Achieves \$1.3 Billion Reduction in Funded Debt and Preferred Equity; Names New Board and Leadership; Commences Trading on NASDAQ Under “XOG” on January 20, 2021

Extraction to embrace new E&P business and governance model

DENVER – JANUARY 20, 2021 – Extraction Oil & Gas, Inc. (NASDAQ: XOG) (“Extraction” or the “Company”) today announced it has successfully completed its financial restructuring process and emerged from Chapter 11. The Company officially concluded its reorganization after completing all required actions and satisfying the remaining conditions of its Plan of Reorganization (the “Plan”).

Extraction also announced the appointments of Tom Tyree as the Company’s new Chief Executive Officer, Matt Owens as President and Chief Operating Officer and Marianella Foschi as Chief Financial Officer. Pursuant to the Plan, the Company appointed a new, seven-member Board of Directors comprised of Benjamin Dell (Chairman), Morris Clark, Carrie Fox, Carney Hawks, Tom Tyree, Michael Wichterich and Howard Willard. Biographical information can be found on the Company’s website at www.extractionog.com/leadership/. All leadership appointments are effective today.

Extraction’s new Board has also established the Company’s first Environmental, Social and Governance committee made up of directors. The committee will oversee the Company’s programs, policies and practices relating to environmental, health and safety, sustainability, corporate social responsibility and other public policy matters.

“The Extraction team has worked hard over the last six months to right-size the business, lower its cost structure and optimize its midstream agreements,” said Benjamin Dell, Chairman of the Board. “The Company is now well positioned to embrace a new E&P business model focused on generating returns above the cost of capital, delivering free cash flow and, most critically, returning that free cash flow to investors. The business has also instituted a new governance model where management and the Board have true alignment with shareholders, while striving for environmental leadership through low-impact operations, emission reductions and reporting,” he said.

New Capital Structure

Extraction’s capital structure now includes a new \$1.0 billion reserve-based lending facility (“New RBL Facility”) with an initial borrowing base of \$500 million maturing in July 2024. Extraction’s unsecured claimants, including holders of Extraction’s senior unsecured notes, received a distribution of approximately 99% of Extraction’s newly issued common stock. A summary of Extraction’s new capital structure follows:

Unrestricted Cash

- Approximately \$11 million cash balance at emergence

New RBL Facility

- \$500 million initial borrowing base
- Approximately \$265 million drawn at emergence
- Matures July 2024

Rights Offering

- \$200 million in proceeds raised from a rights offering subscribed by the Company’s unsecured note holders, existing equity holders and general unsecured creditors
- Proceeds used to repay Debtor-in-Possession (DIP) facility

New Common Equity

- Approximately 25 million shares of common stock outstanding
- Approximately 0.7 million incremental shares reserved for potential future distribution to certain general unsecured claimants whose claim values are pending

Pro Forma Capital Structure Details

Pro forma for the repaid DIP facility and drawings under the new RBL facility, the restructuring resulted in a net reduction of approximately \$1.3 billion in funded debt and preferred equity. Details of the Company's pro forma capital structure and liquidity are outlined below:

Cautionary Note Regarding Forward-Looking Statements

Certain statements contained in this press release constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included herein concerning, among other things, planned capital expenditures, increases in oil and gas production, the number of anticipated wells to be drilled or completed after the date hereof, future cash flows and borrowings, pursuit of potential acquisition opportunities, our financial position, business strategy and other plans and objectives for future operations, are forward-looking statements. These forward-looking statements are identified by their use of terms and phrases such as "may," "expect," "estimate," "project," "plan," "believe," "intend," "achievable," "anticipate," "will," "continue," "potential," "should," "could," and similar terms and phrases. Although we believe that the expectations reflected in these forward-looking statements are reasonable, they do involve certain assumptions, risks and uncertainties. These forward-looking statements represent our expectations or beliefs concerning future events, and it is possible that the results described in this press release will not be achieved. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of our control that could cause actual results to differ materially from the results discussed in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, we do not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for us to predict all such factors. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in the "Risk Factors" section of our most recent Form 10-K and Forms 10-Q filed with the Securities and Exchange Commission and in our other public filings and press releases. These and other factors could cause our actual results to differ materially from those contained in any forward-looking statement.
